WELCOME LETTER

Dear Colleagues, Dear Friends,

On behalf of the Executive Committee of the Lebanese Society of Dermatology, it is my great pleasure to welcome you to Beirut and to the 11th National Congress of Dermatology to be held on May 5th, 6th and 7th, at the Phoenicia Hotel.

The scientific committee, this year, has prepared a dynamic scientific program to identify and treat existing challenges in dermatological diagnosis and therapeutics and highlight exciting advances in basic science and clinical research which will be translated to improved clinical care.

Renowned International and Lebanese experts will be sharing the latest discoveries as well as practice pearls in medical and cosmetic dermatology.

We are also happy to welcome among our participants dermatologists of Lebanese descent from the world as well as dermatologists from neighboring countries.

Last but not least, I extend my warmest appreciation to all pharmaceutical companies for their generous, genuine and unprecedented support.

I also thank Trust and Traders International team for their dedication and advice in planning and arranging this meeting.

We wish everyone a fruitful meeting and a memorable stay.

Yours Sincerely,

Josiane Helou, MD

President of the Lebanese Society of Dermatology
